Urban Elders, mature, Lower Mid Older Mostly w/o Kids

Personal

Interests:

I'm a man who discovered the wheel and built the Eiffel Tower out of metal and brawn. That's what kind of man I am. I'm very important. I have many leather-bound books and my apartment smells of rich mahogany. I love poetry, and a glass of scotch, and, of course, my friend Baxter here. Don't get me wrong, I love the ladies. I mean they rev my engines, but they don't belong in the newsroom. Well, I could be wrong, but I believe diversity is an old, old wooden ship that was used during the Civil War era. Stay classy San Diego!

Emotional

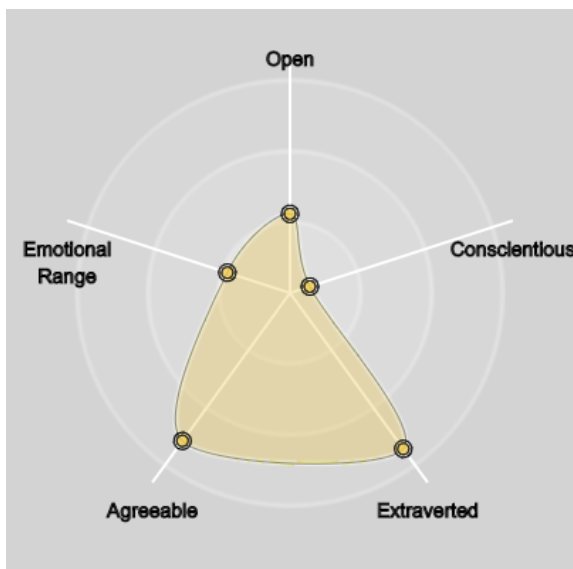

Sad: 12.40
 Disgusted: 9.36
 Angry: 6.02
 Fearful: 6.78
 Joyful: 66.50

Emotional tone is inferred from different types of emotions and feelings that people express in their language. Emotions are commonly characterized as:

- Sadness indicates a feeling of loss and disadvantage.
- Disgust is an emotional response of revulsion to something considered offensive or unpleasant.
- Anger is evoked due to injustice, conflict, humiliation, negligence, or betrayal.
- Fear is a response to impending danger. It may be a mild caution or an extreme phobia.
- Joyful indicates enjoyment, satisfaction, and a sense of well-being.

Big 5 Personality

Agreeable: 85.86
 Conscientious: 9.81
 Extraverted: 90.47
 Emotional Range: 30.94
 Open: 37.14

Big 5 personality characteristics represent the widely used model for describing how a person engages with the world. The five characteristics are:

- Agreeableness is tendency to be compassionate and cooperative toward others.
- Conscientiousness is a tendency to act in an organized or thoughtful way.
- Extraverted is a person's tendency to seek stimulation in the company of others.
- Emotional Range is the extent one's emotions are sensitive to the person's environment.
- Open is the extent how open one is to experiencing a variety of activities.
